Federal Emergency Management Agency

National Fire Data Center (NFDC)

USFA's National Fire Data Center manages:

- National Fire Incident Reporting System (NFIRS) which collects, analyzes, publicizes, disseminates, and markets of information related to the Nation's fire problem.
 - Collects approximately 29 million incidents from over 24,000 fire departments.
 - USFA also works with 250 third party private sector vendors who develop programs for the NFIRS data specification.
 - In addition, USFA works in partnership with Federal partners as well as other external organizations who rely on NFIRS data.
- NFIRS page of USFA web site:
<https://www.usfa.fema.gov/data/nfirs/index.html>.

National Fire Data Center (NFDC)

National Fire Incident Reporting System (NFIRS) Modernization (eNFIRS):

- October 2020.
- Necessary to complete web-enablement of all the NFIRS tools and update architecture and system security.
- Provided training to nearly 2,000 NFIRS State Program Managers and system users.
 - Since its inception have collected nearly 3 million incidents.
 - NFIRS COVID-19 Special Study Dashboard on USFA web site:
https://www.usfa.fema.gov/data/nfirs/covid-19_dashboard.html
