

Core Values

What are Core Values? Core values are the fundamental beliefs of a person or organization. The core values are the guiding principles that dictate behavior and action. Core values can help people to know what is right from wrong. The purpose of NEMSAC values is to determine if we are on the right path to fulfill our goal to provide advice and recommendations regarding Emergency Medical Services to Department of Transportation and Federal Interagency Committee on EMS (FICEMS). Finally, values create an unwavering and unchanging guide.

Use of the Core Values: Core values help NEMSAC to determine which emerging issues the Council undertakes, and are useful when developing and considering recommendations. Core Values also help NEMSAC prioritize new and existing recommendations to Federal agencies.

The NEMSAC keeps the patient/customer as the focus when making decisions, and providing advice or recommendations regarding EMS.		
Value	Expected Behavior	NEMSAC Role
Visionary	<ul style="list-style-type: none"> Evaluate advances in technology, social, or political arrangements and how this may impact EMS 	<ul style="list-style-type: none"> NEMSAC has a clear and distinct idea for the future of the EMS environment
Strategic	<ul style="list-style-type: none"> Encourage diverse thinking Work together to develop evidence-informed, reasoned conclusions Strive to create innovation within NEMSAC and across interrelated organizations 	<ul style="list-style-type: none"> Provide advice and consensus recommendations regarding EMS Link to possible grant guidance from entities such as HRSA, ASPR, and HHS
Diligent	<ul style="list-style-type: none"> Research the necessary information including academic, clinical, financial, and other materials pertinent to the decision-making process 	<ul style="list-style-type: none"> NEMSAC steadily, energetically, and fully evaluates the impact of its decisions on the business of EMS
The NEMSAC ensures measurable results with identifiable outcomes, responsible parties, and timelines.
