National EMS Culture of Safety
Sept 2010 – Sept 2013

Sabina Braithwaite, MD, MPH, NREMT-P
ACEP EMS Committee Chair
Chair, Culture of Safety Strategy Steering Committee
Project Update

NEMSAC Update
March 29, 2012

The goal is to develop a Strategy document that will address developing and promoting a “Culture of Safety” in EMS. It will include “where we are” and “where we want to be” for both patient and EMS personnel safety.
Draft 2.1 Comments

- Update and expand the Definition of EMS used.
- Equal emphasis placed on patient and provider safety.
- Concerns on the use of the NCSEMS model.
- Equal emphasis placed on the role of management and providers in an EMS safety culture.
- Concerns on the use of “Just Culture” as the only example.
Draft 2.1 Comments

• Expand examples of the role of local EMS services, State EMS Offices, and national organizations.

• Include examples of available safety resources. Such as NAEMT safety course and vehicle safety research data from the TRB.
Next Steps

• Release of Draft 3 – May 11, 2012
• Draft 4 for NEMSAC review – November 20, 2012
• Final Draft to NHTSA – May 15, 2013
